

RAVI DHILEEBAN KB

Full Stack Developer

+91 9791103464 | dhileeban07@gmail.com | Tindivanam, India

ABOUT ME

Full Stack Developer with 3+ years of experience designing and delivering scalable web applications using Angular, TypeScript, .NET Core, Entity Framework Core, SQL Server, and Azure Services. Proven track record in building secure RESTful APIs, third-party integrations (OAuth2, Razorpay), and cloud-native features (Azure Key Vault, Blob Storage, Azure Functions). Experienced in Agile/Scrum environments across HRMS, CRM, Insurance, and Port Billing domains.

EDUCATION

M.Sc. Information Technology

SRM University

Year: 2023 CGPA: 8.7

B.Sc. Mathematics

Loyola College

Year: 2020 CGPA: 5.7

SKILLS

- Angular
- TypeScript
- ,RxJS
- .NET Core, ASP.NET MVC
- C#, Entity Framework
- REST API, Web API, Microservices
- Azure Key Vault / Blob / Functions
- SQL Server
- OAuth2, JWT
- Razorpay, Google API, Facebook API
- ABP Framework
- GitHub, GitLab, Postman
- Visual Studio 2022
- Agile / Scrum

EXPERIENCE

Full Stack Developer

Kloudping IT Solutions

2023 – Present

HRMS · CRM · Insurance · Port Billing · NGO/Trust

- Developed scalable web apps using Angular 15+, TypeScript, .NET Core 6/8 & Entity Framework Core.
- Built and optimized RESTful APIs — CRUD, business logic layers, and microservice endpoints.
- Integrated Azure Key Vault, Blob Storage & Azure Functions for security and automation.
- Implemented OAuth2 & payment integrations: Google API, Facebook API, LinkedIn, Razorpay.
- Optimized SQL Server queries and stored procedures, improving system throughput.
- Participated in Agile ceremonies — sprint planning, stand-ups, and retrospectives.

KEY PROJECTS

GeoConnect – Port Call Billing Platform

Tech: ABP Framework, Angular, .NET Core, SQL Server

- Built modules for port call creation, vessel services and invoice workflows.
- Implemented CRUD operations and backend services for managing port-related transactions.

ElasticInsite – CRM & Sales Automation

Tech: .NET Core 6, Angular 15, Entity Framework, Azure Key Vault, LinkedIn OAuth, Razor Payment Gateway

- Developed lead management and customer-tracking CRM with LinkedIn OAuth API.
- Built Angular UI screens, reusable components and secure .NET Core backend.

MyHR – Human Resource Management System

Tech: .NET Core 6, Angular 15, Entity Framework, Azure Key Vault

- Developed core HR modules: Employee Records, Attendance, Leave, Documents.
- Stored all secrets in Azure Key Vault; delivered sprint features on schedule.
